Staffing Report for September 2016

Dorset HealthCare University NHS Foundation Trust reports on nursing staffing levels for all of its wards.

The Trust Board receives regular information of ward staffing levels. For September this information was included in the Trust Board Integrated Corporate Dashboard Month 6 – September 2016 and was reported to the Trust Board in October 2016. The report included the planned versus actual number of staffing hours per ward day and night as submitted to the Department of Health. It includes nurses on duty who do not appear on the rota, for example ward sisters. This is published on NHS Choices. This part of the report is shown on page 3.
