

CASE STUDY

Avril had been working for Dorset Healthcare and the Trust Bank as a Bank Housekeeper, before progressing and becoming an Administrator.

Avril wanted to develop her skillset and enhance her career prospects within the Trust and so she decided to complete the Level 2 Healthcare Support Services Apprenticeship.

Avril received support during her Apprenticeship from the team at Study Advice who she thought were fantastic and she also liked her Maths and English tutors. Avril also picked up new I.T. skills during the course of her programme.

After completing her Level 2 Healthcare Support Services Apprenticeship, Avril wanted to continue her learning and enrolled onto the Level 3 Healthcare Support Services Apprenticeship.

“I feel that one of the benefits of completing an Apprenticeship is that it increases your knowledge of Dorset Healthcare and the workplace”

Since completing her Level 2 and 3 Healthcare Support Services Apprenticeships, Avril would like to complete a higher level of study.

“I would definitely recommend an Apprenticeship with Dorset Healthcare to a friend!”

“Completing an Apprenticeship has opened the door to more opportunities within the Trust!”

“I was incredibly grateful for the opportunity to complete the Apprenticeship programme and I found it very interesting!”
