Keeping children protected in Dorset

Dorset HealthCare's School Age Immunisation Service (SAIS) provides vaccinations to all school age children in the local area, including those that are home educated and in special education schools.

Being immunised against infectious diseases is a very important part of maintaining health, not just for children but also for the entire population.

Visit www.dorsethealthcare.nhs.uk/schoolageimms for more information and to give consent for your child to be vaccinated.
