

My Doctor is:

**What I should do if
my medication makes
me feel ill**

**I am taking Atypical
Antipsychotics**

The doctor wants you to take these tablets because you have mental illness.

You may feel funny when you take your tablets. Tell your family, your carer or your doctor if you feel like this.

- you can't see properly

- you feel fidgety

- your body is hot

- you can't do a poo or feel bugged up inside

- your body is stiff
- you find it difficult to move

- you feel sleepy

- you feel shaky
